

2-37 x 6 Specification Sheet

Hydraulic Submersible Pump

Pump Specifications:

Discharge Diameter:	6"
Suction Diameter:	6"
Impeller Diameter:	9 5/8"
Max. Passable Spherical Solids:	3 1/2"
Max. TDH	47-95' TDH
Max. Flow:	1400-2200GPM @ 15' TDH
Hydraulic Flow requirements:	20-54 GPM
Max. Pressure	2000 PSI
Weight:	205Lbs.
Dimensions:	W=22 3/8" H=21 1/2"
Discharge Fitting:	6" Male Pipe Thread

Description:

Heavy duty hydraulic submersible pump with a 6" discharge, hydraulic motor, opened face impeller, heavy duty grease or oil lubricated bearing block. Pump and impeller are fabricated using Burnell 360 steel, pump also available in 316 Stainless Steel.
